

297,00 mm

The image shows a technical drawing of a rectangular object. The drawing is oriented vertically. At the top, there are two small trapezoidal shapes, likely representing tabs or mounting points. A horizontal dimension line is drawn across the middle of the object, with the label '297,00 mm' centered above it. A vertical dimension line is drawn on the left side, extending from the middle horizontal line down to the bottom edge, with the label '210,00 mm' centered to its left. The bottom edge of the object features two pairs of semi-circular shapes, possibly representing feet or mounting points. The drawing uses thin black lines for the object's outline and dimension lines, and a light green color for the dimension labels.
